DESCRIPTION

1. The wireless usb adapter MCU is RTL8188SU, singer-chip IEEE802.11b/g/n 1T1R WLAN controller with usb 2.0 interface

2. CAT7103(U3) is regulate power ,which regulate power from 5V to 3.3V and supply for MCU

3. RTL8188SU(U1) includes RF Part's cup , power amplifier and RF switch

4. Con3 is connecting pc usb port

5. X1 is provide 40MHZ crystal clock

6. U2 save setting information
